

Professional Profile

Ultimately I am a product designer because through design I can help and delight people - that's what drives me. I have the breadth of a generalist (interface design, information architecture, visual design, and user research) with my specific focus and passion being interaction design.

Focus Areas

- Interaction design
- Journey mapping
- Information architecture
- Rapid prototyping
- Interactive wireframing
- Usability facilitation
- Visual design
- Mentoring and management
- Cross-functional leadership

Career Highlights

- Lead designer on Gazelle's first direct sales website
- Original member of team which built Intuit's Payments business
- Led the growth of the Intuit Payment Solutions design team from two to eleven people in less than three years
- Co-Chair of Intuit Waltham's volunteering organization, We Care and Give Back.

Professional Experience

Staples

Framingham, MA
October '17- Present

Principal UX Designer

Design lead for Checkout process, User Account, and Identity.

- Led the redesign of Cart & Checkout from a multi-page process into responsive single-page.
- Led the design of an Account Dashboard with relevant, personalized data.
- Redesigned the Login experience to include the ability to login from anywhere on the site.
- Led the transition from Invision to Abstract for entire design, product, and engineering orgs.
- Formulated and conducted Axure training for the team.
- Led guidelines creation for Staples first Design System.

Gazelle

Boston, MA
April '14 - September '17

Principal UX Designer

Gazelle is the nation's leading consumer electronics trade-in site. I was lead designer for their first direct sales site (buy.gazelle.com). The site produced over \$25M in revenue in year one.

- Responsible for both desktop and mobile experiences in their entirety.
- Designed the addition of Financing and Warranty as well as catalog expansion with MacBooks and Apple Watch.
- Designed all three landing pages at gazelle.com, buy.gazelle.com, and gazelle.com/trade-in.

Design Consultant

March '12 - April '14
Warren Croce Design

Cartera Commerce

- Lead designer on their first responsive site, used as a development framework for partners.
- Lead designer on the iPad version of their OfferLink app.

QuickBase

- Responsible for incorporating categorized Search into QuickBase as well as incorporating Community into the app.
- Responsible for the redesign of the Sign-In process.
- Led the redesign of the QuickBase.com homepage and multiple interior pages.
- Led the redesign of The FastTrack blog.

LoopPay (now SamsungPay)

- Responsible for evaluating the workflow for purchasing the hardware and creating a redesign based on my recommendations.

Sophos

- Responsible for designing the workflow for selecting a plan. Included three rounds of interactive wireframes and two remote usability studies.

Hooked on Phonics

- Developed workflow for the second version of their iPad app for children.

Intuit

Mountain View, CA
Waltham, MA
July '99 - March '12

Design Team Manager: Intuit Payment Solutions

August '08-March '12

- Design manager for GoPayment; a mobile payment processing system.
- Lead designer for Intuit PaymentNetwork; a bank-to-bank payment service aimed at small businesses.
- Developed a dashboard to track project time and measure capacity for team.
- Member of the Intuit Design Leadership Team; a core group of eleven designers from around the company.
- Grew team from two to five interaction designers, four information designers and one customer researcher in less than three years.

Senior UI Designer: QuickBooks Merchant Service

November '01-August '08

- Responsible for integrating credit card processing workflows into QuickBooks software. This includes processing transactions, reconciling bank deposits, refunding transactions, downloading transactions, accessing server-side reports and more.
- Organized yearly Customer Councils to help guide product development for the Service.
- Facilitated over 50 usability studies, follow-me-homes, and organized the first usability benchmarking study for the Service.
- Responsible for the creation of the Waltham office's first dedicated usability lab.

Senior Designer: QuickBooks Site Solutions

November '00-November '01

- Responsible for developing the structure of the site and all user interface components needed to create this web-based website building tool.
- Co-authored a methodology for a participatory design process that was used for three half-day sessions with all team members.

Senior Designer: User Experience Group

July '99-November '00

- Lead Designer - QuickenStore: The QuickenStore was Intuit's first online marketplace selling its entire suite of products. Responsible for developing the overall information architecture, user interface, and look and feel. Participated in developing a series of usability tests throughout.
- QuickenStore sales grew 300 percent in the 3 months following release.
- QuickBooks.com redesign: Responsible for developing the overall architecture, user interface, and look and feel. Participated in developing a series of usability tests throughout the project as well as conducting user and task analysis in the initial stages.

Patents

Co-inventor on U.S. Patent 7,726,561

"System and method for reconciling credit card payments with corresponding transactions". QuickBooks-related.

Education and Professional Development

- Pratt Institute, Brooklyn, NY - BFA Communication Design. Graduated with Honors.
- Continuing education includes courses and seminars in Web Design, UI Design, Usability Engineering, Field Research.
- Mentor at annual UXPA Boston conferences.
